

# AGENDA

Welcome to Mach 30's first annual Apogee Meeting. Mach 30 has long held that meeting in person is an essential part of our work and key to accomplishing our mission of hastening humanity into a spacefaring civilization. This belief has led Mach 30 to send representatives to conferences around the United States. And now, Mach 30 is taking this value to the next level, hosting a conference dedicated to Mach 30 and its volunteers. Activities at Apogee cover Mach 30 business, projects, and community building.

**Apogee would not be possible without the generous support of our sponsors.**

**Club Cyberia**
